Body-shaped shoulder straps and hip belt for optimized weight distribution and comfort

Rescue handle facilitates saving a wearer in <u>need</u>

Hip belt and shoulder straps move independently for maximum mobility

> Quick attach for regulator unit, no tools required

Size is easily adjusted even when wearing the harness

## The Incurve™ SCBA

## Wear it for your health, not just for safety

Long after leaving a fire scene, firefighters can be exposed to toxic and carcinogenic agents contaminating their personal protective equipment. To reduce this risk of long-term health problems, we developed a SCBA for all cylinder types, with an absolute minimum of textile parts, making it less susceptible to contamination as well as easier to clean. As an added bonus, it's probably the world's most comfortable harness.

Movable attachment points for acce<u>ssories</u>

Quick-drying Keylar straps
